Education

York University, Honours Bachelor of Science in Computer Science   *Expected April. 2024*
- **3rd year**
- **Courses**: Software Design, Design and Analysis of Algorithms, and Introduction to Database Systems

Experience

MNS Logistics, Inc., Junior Web Developer   *December. 2022 – Current*
- Developing MNS Logistics' first website using **HTML**, **CSS,** and **JavaScript**.
- Creating a **user-friendly interface** to provide customers with all the necessary information about MNS Logistics.

Fossil, Retail Associate   *May. 2022 – Current*
- At Fossil I had to sell accessories such as watches, bags, and jewelry to customers by figuring out what they need.
- The store was very busy at all times of the day, so I have to talk to many customers every day while communicating with my coworkers to ensure all sales and services go by smoothly and fairly for the customers.

MNS Logistics, Inc., Office Assistant   *July. 2019 – Sept. 2020*
- I managed emails between customers and coworkers to ensure efficient trips were planned.
- Searched for transportation opportunities.
- Organized and looked over important paperwork.

Projects

MazeSolve | Python
- A **Python** application that uses a slightly modified version of the **pyamaze** library to visually demonstrates different maze-solving algorithms such as **DFS**, **BFS** and **more**.

MyMovieList | Python, Flask, HTML, CSS, SQL
- Designed a web application using **Flask,** to use the power of python on the interface of HTML
- Used **SQL** to save users' movie data safely for future use of the application.
- Using **Python** for web scraping to get information about the movies.

Amadeus (Discord bot) | JavaScript, TypeScript, Node.js
- Amadeus currently provides the user with **8+** working commands.

Attack on Titan Tribute Game 2 (Community Project) | Unity, C#, Git
- A volunteer-based community project which aims to polish and update the original discontinued open-source game developed by Feng Lee **Attack on Titan Tribute Game (2M+ downloads).**
- I simply help where I can with bug fixes and new features in my free time.

Skills

Languages: Python, Java, JavaScript, HTML, CSS, SQL, C#, C++, C, Bash

Tools & Frameworks: Flask, SQLite, MySQL, MongoDB, Git
